

INNOVATION
IN THE AIR.

CUSTOM AIR HANDLING UNITS

Energy Recovery

- Superblock™ regenerative dual core technology
- Energy recovery wheels
- Plate & core heat exchanger
- Thermogain heat pipes

Heating Technologies

- Indirect-fired gas heating (up to 5,000 MBH)
- Direct-fired gas heating (up to 9,000 MBH)
- Hot-water heating coils
- Electric heating coils
- Steam heating coils

Cooling Technologies

- Chilled-water cooling coils
- Direct expansion cooling coils
- Packaged air-cooled condensing (up to 180 tons)
